Disposable Material Guidelines

- All disposable materials and/or packaging must be compostable with the exception of recyclable #1 cups, and drink lids and straws.
- Not allowed: styrofoam/polystyrene, bleached paper products (white paper plates, bags and napkins), compostable plastics, plastic bags, white paper bags, recyclable plastics
- Allowed: brown paper products, unbleached plant fiber products, bamboo and wood, #1 recyclable cold cups
- Please talk to market staff with questions. Exceptions made on a case by case basis only

Tips For Product Selection

- Select products that are paper instead of plastic
- Select paper products that are brown instead of white
- Think about how you could eliminate disposable items from your products
